TAKES AN INSIDER'S LOOK AT...

The Furniture Doctor

Written by Terri Parsell Hilmey

The Furniture Doctor stocks its unique furniture showroom and four on-site cabins with the finest selection of Adirondack, lodge and cottage furniture in the region and is the premier dealer of Old Hickory products in Western New York.

Incorporated in 1898, Old Hickory has a tradition of high-quality, stylish furniture for the living room, dining room, bedroom and outdoors. Their newest offerings have extended that craftsmanship and rus-

Tom Baker (owner) and his daughter Martha

tic elegance into the real “living areas” of the home, the kitchen and bath. “Hand-Made in America” assures quality and on-time delivery of cabinets – made by craftsmen in Indiana – using American woods. The Furniture Doctor is known for its custom approach to individual homes and Old Hickory fits in perfectly with that dedication to care and customer service.

By working exclusively with a quality kitchen-and-bath retailer and designer like The Furniture Doctor, Old Hickory creates unique, one-of-a-kind products that will exceed all expectations. Old Hickory uses all natural, sustainable materials in their products including hickory saplings, birch bark, copper, rawhide, leather and mica. Old Hickory’s “live edge” walnut tops for kitchen islands and bathroom vanities provide a unique and natural look that defy imitation – each live edge is sliced from fallen walnut trees to take advantage of nature’s own design. Old Hickory is one

of only a few companies capable of providing such a showpiece countertop.

Old Hickory trusts The Furniture Doctor to carry their line because of their unique qualifications. All of their furniture is repaired and serviced on-site and their expertise in the area is so notable that they do restoration for Rochester’s George Eastman House and many prominent regional museums. The Furniture Doctor’s commitment to service is unparalleled as are its craftsmen and workshop facilities.
